Professional Summary

Proficient in C++, Java, JavaScript, and SQL. Skilled in React, Node.js, and MongoDB for Full Stack Web Development. Recognized for problem-solving and collaboration in fast-paced environments. Specializing in Data Structures, Databases, and Software Engineering.

Education

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2022	Bachelor of Commerce	Spoorthy Degree & Pg College	65.0%
2019	Intermediate (Class XII)	KLN Junior College	69.0%
2017	Matriculation (Class X)	Shivani High School	83.0%

Internship and Certifications

TechOptima | Software Developer

August 2023 - October 2023

- Aligned coding targets with organizational goals, resulting in a 25% acceleration in project timelines.
- Restructured legacy code, reducing system bugs by 30% and enhancing overall functionality.
- Implemented optimized code structures, leading to a 20% increase in system efficiency and scalability.

freeCodeCamp | JavaScript Algorithms and Data Structures

April 2023 - November 2023

- Advanced proficiency in JavaScript for precise issue resolution.
- Expertise in recursion, Object-Oriented Programming (OOP), and functional programming for diverse solutions.

Newton School | Full Stack Web Development

April 2023 - September 2023

- Proficient in MERN stack and Java, developing impactful applications with robust functionality.
- Extensive experience in seamless integration of front-end and back-end technologies for dynamic, responsive web applications.

freeCodeCamp | Front End Development Libraries

February 2023 - June 2023

- Expertise in React, Redux, and UI/UX Design obtained through dedicated learning at freecodecamp.org.
- Application of expertise in creating intuitive, visually appealing, and functional interfaces meeting user needs.

Projects

MoonFlix-Movie-App | Newton-School ([link](#))

September 2023 - September 2023

- Designed and deployed a user-friendly interface, resulting in a 40% improvement in user navigation.
- Enforced stringent security measures, ensuring 100% data integrity during authentication.
- Engineered new features that enhanced movie management, contributing to a 35% rise in user engagement.

CryptoCurrency | Newton-School ([link](#))

August 2023 - August 2023

- Developed groundbreaking crypto app using React.js, Material-UI, and Framer-Motion, demonstrating innovative prowess and impressing the team.
- Introduced an elegant interface that increased user engagement by 30%, seamlessly onboarding users into the crypto world.

Skills

Computer languages	NoSQL, TypeScript, HTML, CSS, Javascript, Java, SQL, C, C++
Software Packages	Docker(Container), Excel, JQuery, Power BI, MySQL, NodeJS, Bootstrap, Express JS, React, Mongo DB, Virtualization, Windows, Django
Additional Courses Taken	Data Structure
Soft Skills	Written communication, Time management, Responsibility, Leadership, Decision-making, Delegating tasks, Creativity, Teamwork, Critical Thinking, Communication Skills, Presentation Skills, Interpersonal communication, Verbal/nonverbal communication, Team Building, Research
Others	Accounting, Microsoft Office, Email Marketing, Graphic Design, Social Media, Analytics

Co-Curricular Activities

- Orchestrated dynamic events and successful charity fundraisers, showcasing exceptional organizational finesse and impactful leadership.
- Led the Debate Team to numerous victories, praised for persuasive skills and strategic argumentation.
